Through the Years with the *Teaching Music* Series

Over twenty years ago, a team of nationally recognized band directors and teachers came together to produce a long-needed resource that would provide theoretical, analytical, and practical information for band directors desiring to help students move beyond the printed page toward musical awareness and understanding.

That team, under the able leadership of Richard Miles, Director of Bands at Morehead State University, created an invaluable asset and inaugurated a pioneering series of guides to the significant band literature of the day: *Teaching Music through Performance in Band, Volume 1*, accompanied by recordings of selected pieces featured in the book.

Beginning with the first volume in 1997, the *Teaching Music* series has grown to 11 volumes for band (including the new revised second edition of volume 1), two for beginning band, two for jazz ensembles, and one each for marches, middle school band, and beginning jazz ensembles.

Today *Teaching Music through Performance*, including resources for choir and orchestra, is a series of resource guides very much alive and growing that encompasses an incredible 16,000-plus pages covering almost 1,800 pieces of significant music literature supported by more than 80 compact discs. In addition to these printed and recorded materials, music directors have at their fingertips a website dedicated to helping them get the most from the series, with a searchable database of all selections and over 1,000 MP3 audio clips.

To all who have enjoyed and benefited from these materials, GIA both thanks you and encourages you to look forward to the new resources to come.

For a complete searchable index of works covered in the *Teaching Music* series, as well as audio clips of more than 1,000 pieces, visit
